VULCANIZER

VALVE CORES fit all standard tire valves

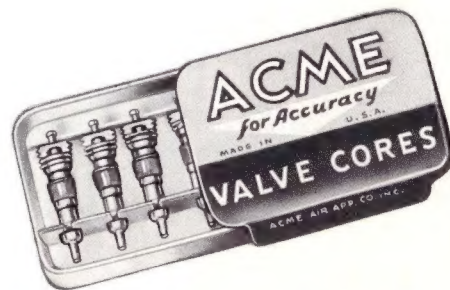

Your best buy—here's why:

1. Swivel construction prevents bruising of rubber gaskets when inserting and removing core.
2. Rubber gasket vulcanized and molded to core for absolute, everlasting seal.
3. All metal parts plated to prevent corrosion.
4. Special super fatigue-resistant stainless steel spring assures dependable service and long life. (Internal spring on short cores.)
5. Larger, deeper, stronger cup, lined with the best plate-gasket rubber that science has conceived.

ITEM NO.	DESCRIPTION	STD. PKG.	STD. WGT.
150 MB	Long Valve Cores — packed in metal box.	1,000 cores 5 in box 20 boxes to carton 10 cartons to container	5 lbs.
150 BK	Long Valve Cores — bulk packed.	500 cores 100 to carton 5 cartons to container	1½ lbs.
151 MB	Short Valve Cores — packed in metal box.	1,000 cores 5 in box 20 boxes to carton 10 cartons to container	4¾ lbs.
151 BK	Short Valve Cores — bulk packed.	500 cores 100 to carton 5 cartons to container	1¼ lbs.

CODE:
MB means metal box packing
BK means bulk box packing

VALVE CAPS

No. 300

No. 301

No. 302

No. 305

Acme valve caps are precision machined from solid brass. Result in a heavier, sturdier, longer lasting valve cap. Threads are deeper and more precise. Therefore, the seal is more air tight with less likelihood of lost caps due to vibration. Acme valve caps have been the choice of expert mechanics the world over for more than 40 years.

ITEM NO.	DESCRIPTION	STD. PKG.	STD. WGT.
300PB	Short skirted cap. Turned from solid brass rod. Durably nicked. Sealing surface remains airtight even after repeated application. Packed in paper box.	1,000 caps — 5 in box 20 boxes to carton 10 cartons to container	6¼ lbs.
300BK	Same as 300PB — bulk packed.	1,000 caps 100 to carton 10 cartons to container	5¼ lbs.
301PB	Turned from solid brass. Heavily nicked with drilled center. Deeply knurled collar. Sealing surface stays airtight. Packed in paper box.	1,000 caps — 5 in box 20 boxes to carton 10 cartons to container	7½ lbs.
301BK	Same as 301PB — bulk packed.	1,000 caps 100 to carton 10 cartons to container	6½ lbs.
302BK	A low-priced cap of superior construction. Machined from solid brass, Knurled and nicked. Tight seat washer — bulk packed.	1,000 caps 100 to carton 10 cartons to container	5 lbs.
305PB	Long skirted cap, covers entire valve thread to keep out dust. Brass, heavily nickel-plated. Positive-seal washer. Packed in paper box.	1,000 caps — 5 in box 20 boxes to carton 10 cartons to container	7½ lbs.
305BK	Same as 305PB — bulk packed.	1,000 caps 100 in carton 10 cartons to container	7¼ lbs.
310	Valve Cap — Dome Type — Plastic	1M	1¼ lbs.

No. 310

Specify "PB" after number for caps packed 5 to colorful paper box. Specify "BK" for bulk.

RUBBER VALVES

A remarkable
valve
without equal!

- rubber valve section chemically and mechanically secured to metal insert for firm, permanent, air-tight bond.
- double sealing, yet mechanical bond alone is enough to assure complete and permanent air-tight seal.
- metal insert cannot be "blown out."
- can be vulcanized to natural or synthetic rubber tubes and takes long or short standard type cores.
- superior quality and design at no extra cost.

ITEM NO.	DESCRIPTION	STD. PKG.	STD. WGT.
TR15	Base Dia. 2 1/4" Length 1 3/8" Use on all 15", 16" sizes up to and including 8.25 except 4.50/16 and 4.75/16.	10	10 oz.

AIRLINER GAUGES

TOUGH, RUGGED PRECISION INSTRUMENTS!

The Airliner is the station gauge of field-proved dependability. Used daily in thousands of busy service stations.

COMPARE THESE FEATURES:

- Calibrated 10 to 120 lbs. in 2 lb. units.
- Straight line construction. Permits free air flow. Assures faster inflation and uniform accuracy.
- Rubber bumpers protect instrument.
- New reciprocating pressure indicator etched on aluminum. Easily read through magnifying "direct-view" lens.
- Impervo-sealed against external dirt and weather.
- Air filters at both ends prevent dirt from clogging gauge.
- Light. Weighs only two lbs.
- Guaranteed for 1 year against mechanical defects.

NO. 1000
MODEL D

NO. 1000
MODEL R

NO. 1000
MODEL T

Above gauges can also be supplied with calibrations in kilograms.

ITEM NO.	DESCRIPTION	STD. PKG.	STD. WGT.
1000 MODEL D	Airliner Gauge with No. 1025D hose assembly. Complete with dual extension chuck for hard-to-reach valves. Calibrated 10 to 120 lbs. in 2 lb. units.	1	2 lbs.
1000 MODEL R	Same as No. 1000D, but with swivel chuck No. 800. Calibrated 10 to 120 lbs. in 2 lb. units.	1	2 lbs.
1000 MODEL T	Tractor Airliner Gauge. Same superior mechanical features of the No. 1000 Airliner gauge. All internal parts and housing specially coated to prevent corrosive action of water and anti-freeze solutions in tractor tires.	1	2 lbs.

PORTABLE AIR TANKS

No. 2500

Tank gauge

No. 2551*

No. 2550

ITEM NO.	DESCRIPTION	STD. PKG.	STD. WGT.
2500	Light, portable tank withstands constant pressures up to 250 lbs.* Size: 8" x 16". Equipped with 15" No. 1030 hose assembly. Air capacity: Approx. .4 cu. ft. or 3.25 gal.	1	14 lbs.
2550	High capacity tank withstands constant working pressures up to 150 lbs.* Size: 12" x 20". Equipped with 48" No. 1025L hose and No. 815 universal chuck. Air capacity: 1.2 cu. ft. or 9 gal.	1	30 lbs.

Sturdily constructed air storage tanks of heavy, welded steel. Perfect air sources for on-the-spot inflation of tires on: autos • tractors • wheel barrows • trucks • bicycles. Hundreds of other uses for:

home • garden and shop • paint and insecticide spraying • deodorizing • cedarizing • inflating sport and beach equipment

Ideal auxiliary for any contingency where air under pressure is needed. Each tank is individually hydrostatically tested. Handsomely finished in gray hammertone.

*No. 2551—Easy-to-read 2" gauge calibrated in 5 lb. units. Reads higher than tank capacity in conformance with industry practice.

TANK VALVES

ITEM NO.	DESCRIPTION	STD. PKG.	STD. WGT.
2570	1/8" pipe thread at end allows full valve extension.	10	6 oz.
2575	1/8" pipe thread part way up permits minimum protrusion. 1 5/16" long without cap.	10	6 oz.

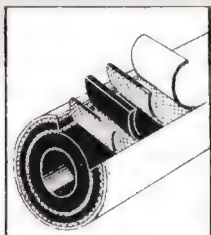

No. 2570

No. 2575

Replacement unit with valve core and cap. Replaces most all air intake valves for tanks, compressors, air jacks, uplifts and other pneumatic devices. (Illustrations actual size.)

"SUPER-TUF" AIR HOSE

The ideal air hose for busy service stations and garages. Reinforced like a tire to stand up under severe service abuse. Two braid construction with smooth red, durable cover. Withstands 200 lbs. working pressure. Heavy cotton braid.

ITEM NO.	DESCRIPTION	STD. PKG.	STD. WGT.
725	25 feet long with 2 ferrules and 2 No. 850 male couplings.	1	4 lbs.
725A	Same as No. 725 plus 1 No. 815 Air chuck.	1	4 lbs.
725B	Same as No. 725 plus 1 No. 825 dual extension chuck.	1	4 1/2 lbs.
750	50 feet long with 2 ferrules and 2 No. 850 male couplings.	1	8 lbs.
750A	Same as No. 750 plus 1 No. 815 Air chuck.	1	8 lbs.
750B	Same as No. 750 plus 1 No. 825 dual extension chuck.	1	8 1/2 lbs.
755	250-foot continuous length without connections.	1	42 lbs.
756	500-foot continuous length without connections on a sturdy reel.	1	83 lbs.

DRAIN COCKS

No. 2601

No. 2602

No. 2603

No. 2604

No. 2605

Acme Drain Cocks are manufactured with "Swiss watch" accuracy. Screw threads are sharp and clean, cut to micrometer tolerances to insure a snug, leak-proof fit. Each handle joins the drain cock body in perfect combination. Plier and hammer pressure will not twist them out of shape. Replaces all other $\frac{1}{4}$ " and $\frac{1}{8}$ " pipe thread size drain cocks.

Attractive sight-selling counter display card. Each card individually packaged in strong, protective carton.

ITEM NO.	DESCRIPTION	STD. PKG.	STD. WGT.
2601	$\frac{1}{8}$ " standard pipe thread. This item and No. 2602 will fit about 95% of all vehicles serviced by the average shop.	25	$\frac{3}{4}$ lb.

No. 351

No. 349

No. 348

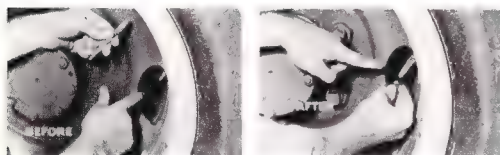

No. 350
"Air-In" Extension
Valve Cap

Perfect for elongating valves on cars with full wheel discs or simulated wire wheels. Install in an instant—screw into original valve. Tip of extension is threaded for valve cap. Precision machined from brass rod. All other parts of brass except hard rubber air sealing gaskets.

ITEM NO.	DESCRIPTION	STD. PKG.	STD. WGT.
348	Extends valve $2\frac{3}{32}$ "	25	8 oz.
349	Extends valve $1\frac{5}{16}$ "	25	¾ lb.
350PB	Extends valve $\frac{9}{16}$ "†	5 in box 20 boxes to carton	1½ lb.
350BK	Extends valve $\frac{9}{16}$ "†	50	12 oz.
351	Extends valve $1\frac{13}{32}$ "	10	5 oz.
352	Extends valve $2\frac{7}{32}$ "	10	8 oz.
353	Extends valve $3\frac{1}{16}$ "*	10	1 lb.

*Does not include $\frac{7}{8}$ " overlap over valve to counteract centrifugal force. Overall length: 4"
†Eliminates removal of valve cap for inflation and deflation.

Ideal for extending hard-to-reach valves on inside dual wheels.
